EXPERIENCE

Technical Product Consultant | *The Blessed Life — Calgary, AB*

2023 – Present

Led end-to-end product delivery for B2B workflow-driven SaaS initiatives, guiding customer discovery and problem framing to define roadmaps and success metrics.

Partnered with Engineering and UX teams to design and ship scalable solutions, managing backlog, user stories, and Agile execution to ensure on-time releases.

Defined and tracked adoption, usability, and efficiency KPIs — achieving ~25% improvement in workflow completion and ~30% increase in feature adoption.

Electrical Engineer | *Cris Planners and Builders*

2021 – 2023

Operated within compliance-driven environments, translating complex technical constraints into clear requirements and delivery decisions.

Collaborated cross-functionally with engineers, field teams, and management to resolve system issues and align project priorities.

Developed strong systems thinking, documentation, and validation skills directly applicable to the SDLC.

FEATURED PROJECTS

Product Manager & Lead Developer | *SatBrain — AI Study Platform*

2025

Defined vision and roadmap for a GenAI EdTech platform converting PDFs, DOCX, and audio into flashcards, quizzes, and visual charts using Gemini 1.5 + RAG.

Processed 500+ documents in beta; reduced study prep time by ~70% and achieved 90% positive feedback on the Visual Charts feature.

Product Manager & Systems Architect | *Restostar — Restaurant Reputation SaaS*

2024

Defined 0-to-1 MVP strategy for a B2B reputation management platform, routing happy guests to public reviews and unhappy guests to a private resolution channel.

Captured 15+ critical feedback items privately in the first pilot month, resulting in zero negative public reviews during the pilot period.
